Website Development

PROJECTS

IndecisionApp

Live Demo :- <https://rb.gy/6s4zjw>

Web application built with ReactJS. The indecision app will help you make up your mind, when you can't decide between an array of options. Add the options you'd like the app to go through and it will randomly select for you.

Vision-2019

Live Demo :- <http://itvision.ga/>

Web application built with HTML, CSS, BOOTSTRAP. Vision website created for Sardar Vallabhshai Patel Institute of Technology (SVIT) event in 2019, As a Advisor and Developer.
